EXAMINER'S AMENDMENT

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because: Figs. 7 and 8 are handwritten. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

3. **In the Claims:**

- a. Claim 1, line 12, delete "plurality transmit" insert "plurality of transmit".
- b. Claim 6, line 10, delete "plurality transmit" insert "plurality of transmit".
- c. Claim 9, line 10, delete "plurality transmit" insert "plurality of transmit".
- d. Claim 26, line 11, delete "plurality transmit" insert "plurality of transmit".

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The instant application discloses a space-time coding apparatus. Prior art references show similar methods but fail to teach **“a de-multiplexer arranged to de-multiplex the modulation symbols to the signal outputs to provide a space-time encoded information symbol which is transmitted by all the plurality of transmit antennas”**, as in claims 1, 6, 9 and 26; and **“refining the channel estimate for each channel, by processing the received symbols to remove the expected effect of the transmissions carried by all the other channels by performing cancellation using the relevant parts of the sequence of symbol estimates and to remove the expected effect of modulation on each symbol and by averaging the channel estimates over all symbols for each respective channel to produce a refined estimate for each channel; decoding the information symbols again using the refined channel estimate to produce a refined sequence of coded symbol estimates, and repeating steps (d), (e), and (f) until convergence”**, as in claims 10, 19, 25 and 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
